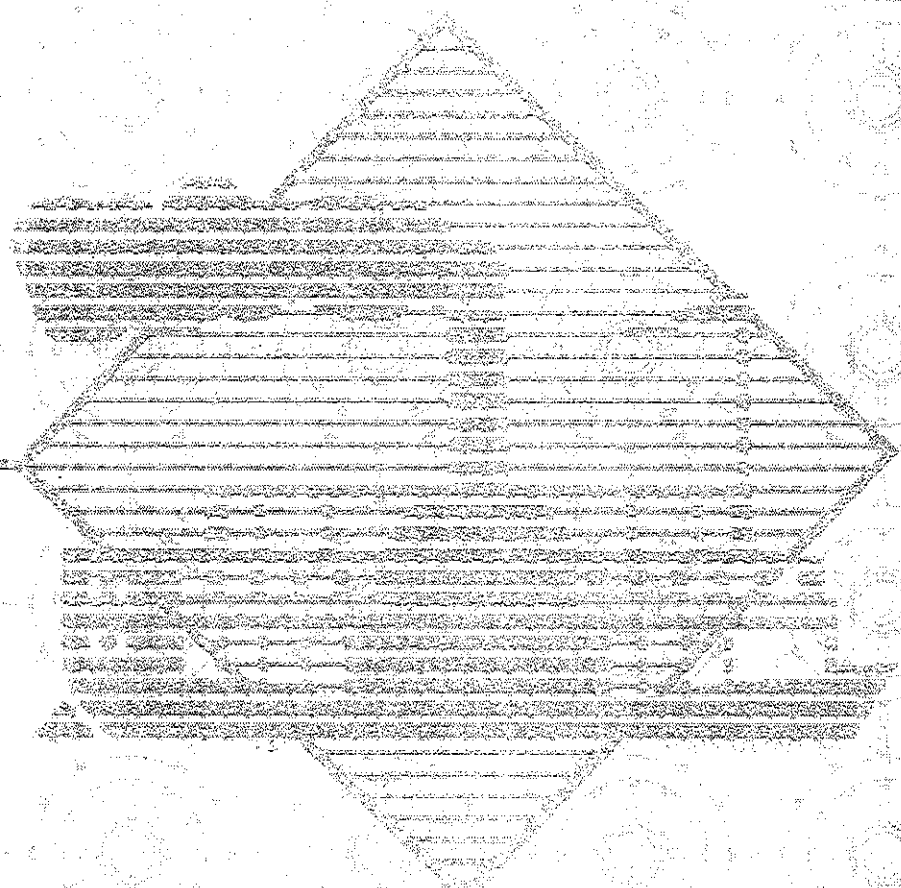
Illinois Gaming Board



1996 Annual Report

Governor Jim Edgar

J. Thomas Johnson, Chairman

William B. Browder - Byron C. Cudmore - Gayl S. Pyatt - Robert F. Vickrey

Illinois Gaming Board Members

Chairman

J. THOMAS JOHNSON has been a board member since 1990 and was reappointed in July of 1993 and 1995. He is a certified public accountant and is National Director of State and Local Taxes for Grant Thornton. He was director of the Illinois Department of Revenue from 1980 to 1987 and is former president of the National Association of Tax Administrators. A nationally-recognized expert in the area of multi-state taxation of income, he served on President Reagan's Task Force on Worldwide Unitary Taxation.

WILLIAM B. BROWDER was first appointed to the Board in October 1993 and reappointed in July 1996. A retired attorney, he was on the board of the Chicago Crime Commission for more than 30 years, serving as President of the Commission from 1965 to 1967. Mr. Browder was a member of the Illinois Racing Board from 1973-74 and the Board of Higher Education from 1975-91, including 12 years as Board Chairman. He is also a past board member of the University of Illinois Foundation and has been a member of the University of Illinois President's Council since 1974.

GAYL S. PYATT was appointed to the Board in February 1993 and was reappointed in June 1994. She is an attorney in private practice in Pinckneyville. Mrs. Pyatt served on the Illinois Board of Higher Education from 1989-93. A member of the University of Illinois Foundation Board of Directors since 1989, she served as its president from 1993-95. She is also a member of the U of I President's Council and a past member of the U of I Alumni Association Board of Directors. She is a member of the Lincoln College Board of Trustees and serves as Secretary to the Lincoln Academy of Illinois.

BYRON G. CUDMORE was appointed to the Board in November 1995 and reappointed in 1996. He is a partner in the law firm of Hinshaw & Culbertson. Prior to entering private law practice, Mr. Cudmore was Acting United States Attorney for the Central District of Illinois in 1993. From 1986 to 1993, he served as First Assistant U.S. Attorney for the Central District. Mr. Cudmore also worked as Assistant State's Attorney for eight years in Sangamon and Jackson counties. He is past president of the Sangamon County Bar Association and is presently on the Board of Director's of the Lincoln-Douglas American Inn of Court.

ROBERT F. VICKREY has been a Board member since 1992. Vice President of Legislative Affairs and Economic Development for the Miller Group Media in LaSalle, he was reappointed to the Board in July 1995. Mr. Vickrey is a founder and serves as vice-president of the Illinois Economic Development Council. His special skills include the organization of large-scale transportation projects. Through these endeavors, he brings a unique understanding of the role of media and public relations, as well as the ability to serve local and regional citizen, industry and government groups.

Letter to the Governor

Dear Governor Edgar,

Change is a necessary part of growth and all new industries will experience numerous changes as they mature. In the five plus years that riverboat casinos have been operational in Illinois, the Illinois Gaming Board has monitored these changes to ensure that the integrity of gaming is maintained.

Since its inception, the Board has focused on licensing the State's riverboat operations, the industry's work-force and gaming suppliers, ensuring that all requirements of the Riverboat Gambling Act are met. Authorizing and regulating casino gambling for Illinois has been, in the judgment of the Board, a challenge well met. The rapid growth of riverboat gambling in the Midwest provides new challenges for the Board.

In 1996, the Board began to examine the economic effects of the riverboat gaming industry. The growth of this industry has provided significant data that now affords the Board the opportunity to examine broader issues than in the previous years — issues that will ultimately impact the gaming industry as a whole.

At a conference convened by the Board in September of 1996, economists, regulators, public policy researchers, industry representatives and industry critics came together to discuss the various methodologies available to study the economic impact of the riverboat casino industry on Illinois. This conference drew national attention from media, economists and regulators of other states who are also studying the impacts of gaming.

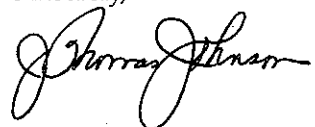
It was at this conference that the Board released its initial research paper on the economic and fiscal impacts of riverboat casino gambling in Illinois. The paper, which also summarized the Board's long term research agenda, provided a comprehensive look at the expenditures of the 10 riverboat licensees. This report will serve as a building block for future Board studies on the economic and social effects of casino gambling.

In 1996, the Board also evaluated and revised its existing rules which govern all those subject to the Gaming Board. In addition to rule changes, the Board prepared and proposed changes to the Riverboat Gambling Act that address issues of major regulatory concern.

In 1997, the Board will continue to emphasize administrative and regulatory issues, such as licensing, investigations, tax collections and audit activity. The Board will also continue to address broader concerns with a watchful eye in 1997.

This annual report chronicles the activities of the Board in 1996. It will also provide a revenue profile of the state's 10 riverboat casino licensees.

Sincerely,



J. Thomas Johnson
Chairman

Overview of Illinois Riverboat Gambling

In February 1990, the Illinois legislature enacted the Riverboat Gambling Act (Act), creating the Illinois Gaming Board (Board) and authorizing the issuance of 10 riverboat casino licenses. The intent of the Act is to enhance investment, development and tourism in Illinois. The Act states that this can only be done successfully if "public confidence and trust in the credibility and integrity of the gambling operations and regulatory process is maintained."

The five-member Board, appointed by the Governor and confirmed by the Senate, provides a regulatory and tax collection system for riverboat casino gambling in Illinois. The Board appoints an Administrator to oversee and direct staff in the day-to-day operations, including investigations, enforcement, licensing, tax collections and audit activity. The Board's staff perform audit, legal, enforcement, investigative and financial analysis activities. Staffing includes 42 direct agency employees, a detail of 125 Illinois State Police personnel and three Internal Revenue Service Agents.

The Board issues three separate types of gaming licenses: owner, occupational and supplier.

Owner's licenses are awarded to each of the 10 riverboat gambling operations. An owner's license entitles the licensee to own and operate two riverboats at a single specified site and permits up to 1,200 established gaming positions. Owner's licenses are valid for an initial three year period. Licenses are renewable annually, provided that the Board determines that the licensee continues to meet the requirements of the Act and Board rules. In addition to assessing owner licensee operations, the Board ascertains the suitability of Key Persons — the officers and directors of the licensee companies.

An occupational license must be held by all employees of Illinois' riverboat casinos. The Board issues three levels of occupational licenses. A Level 1 license applies to upper-management personnel. Level 2 licenses are issued to gaming-related employees and security personnel. A Level 3 license is for non-gaming related positions. Each license must be renewed annually.

All suppliers of gaming-related equipment and services must be licensed by the Board. No gambling equipment or supplies may be sold or leased unless they conform to the standards specified in the Board's rules. An initial supplier's license expires after one year. A recent change in the Board's rules now permits renewals to be valid for four years, with annual updated submissions of detailed information.

Prior to any license being issued, the Board directs its staff to conduct extensive background investigations on all applicants. These investigations include the review of an applicant's personal background and financial history and status.

The Act provides for the assessment of two separate gaming-related taxes on riverboat casinos: a 20 percent tax levied against Adjusted Gross Receipts (AGR) and a $2 tax for each admission. These taxes are collected by the Board. Three-fourths of the gaming receipt taxes collected and one-half of the admission tax are retained by the State. The remaining tax receipts are transferred by the Board to the local unit of government where the riverboats are docked. A portion of the State share of gaming taxes is used to pay for Board operations. The balance of the state share is transferred into the Education Assistance Fund, which is used to fund elementary, secondary and higher education. ■

Illinois Gaming Board 1996

The central focus of the day-to-day operations of the Board is directed toward activities relating to licensing, investigations, enforcement, tax collections, financial analysis and audit activities. In 1996, the Board aggressively continued to meet those regulatory mandates as well as to examine broader gaming-related issues.

BOARD ACTION — Licensing, Renewals and Disciplinary Actions

To ensure the integrity of casino operations in Illinois, the Board licenses all riverboat casinos, their work-force and any supplier of gaming-related equipment or services to Illinois' riverboat casinos. Prior to granting any license, the Board requires extensive background investigations to be conducted by its staff.

In 1996, nine of the State's ten riverboat casino licenses expired and were renewed with formal Board action. The Alton Gaming Co.; Par-A-Dice Gaming Corp.; Rock Island Boatworks, Inc.; Empress Casino - Joliet, Corp. and H.P., Inc. came before the Board for their second annual license renewals. The initial three-year license for Southern Illinois Riverboat Casino Cruises, Inc.; Harrah's Casino Cruises Joliet; Hollywood Casino - Aurora, Inc. and Casino Queen, Inc. expired in 1996 and came before the Board for their first annual renewals. The Elgin Riverboat Resort's three year initial license will expire in 1997.

The Act requires all individuals employed by the riverboat casinos to be licensed by the Board. All individuals must be hired by the casino prior to beginning the licensing procedure. The Board conducts background investigations on all employees and issues occupational licenses once the investigations are completed and approved by the Board. In 1996, the Board approved 4,496 new licenses and denied 124. Most licensure denials are the result of criminal convictions that disqualify an individual from working in the gaming industry. As of December 1996, 722 occupational licenses were under review by the Board's investigative staff.

The Board also issues licenses to businesses that provide gambling equipment or services to Illinois' riverboat casinos. Illinois' Riverboat Gambling Act requires gaming operations to purchase or lease equipment and supplies from licensed suppliers only. During 1996, the Board renewed 15 suppliers licenses and issued licenses to two new vendors. One application was pending final investigation as of December 31, 1996.

In 1996, the Board, as authorized by the Act, issued 22 disciplinary complaints against individuals and owner licensees for violations of the Act or Board rules. Twenty complaints were authorized against individual licensees. Four of these complaints are pending appeal. Two disciplinary complaints were entered against owner licensees. The Alton Gaming Company was fined $25,000 for allowing an underage patron to gamble on their vessel. H.P., Inc. was fined $10,000 for failure to notify and receive approval from the Board for changes in capitalization.

BOARD ACTION — Recommended Legislation

The Board developed and considered a number of policy issues during 1996. These deliberations culminated in a wide-ranging legislative proposal to improve the regulation of casino gambling in Illinois. These issues were articulated by the Administrator in testimony before the General Assembly's Gaming Study Task Force in August. The Board followed up on the Administrator's testimony by drafting and circulating its legislative proposal for introduction in the 90th General Assembly. The Board's proposed legislation seeks to accomplish the following:

- Provide for entry to a riverboat by persons under 21 to be a petty criminal offense.
- Incorporate the Board's Code of Conduct into the law and add penalties for violations.

- Strengthen provisions regarding the Board's regulation of ownership interests and ownership transfer; create a Class 4 felony for violation of ownership disclosure and approval requirements.
- Strengthen Board oversight of: owner licensee contracts; payment of taxes; related party agreements; and, benefits derived from ownership interest or rights.
- Eliminate obsolete and conflicting provisions specifying the location of owner's licenses, substituting the requirement that at least six of the licenses be located outside of Cook and the collar counties.
- Provide for an owner's license renewal period of up to four years, subject to explicit Board authority to impose limitations and conditions on the license and requirement of annual license fees and annual updates of key information.
- Specify limited circumstances under which the Board may seek a court-appointed receiver to continue riverboat operations.
- Modify provisions relating to gaming excursions by requiring the Board to assure cruises are conducted to the maximum extent practicable given concerns for vessel and passenger safety.
- Replace the current flat $5,000 annual fee for a supplier's license with an annual graduated supplier license fee of not more than $5,000, to be established by the Board based on the amount of business done in Illinois.
- Make other technical and clarifying changes in the Act relating to: granting owner's licenses; training schools; gaming equipment and supplies; wagering tax payments; appropriations to the Board for administration and enforcement; and, references to the Retailer's Occupation Tax Act and Uniform Penalty and Interest Act.

BOARD ACTION — Rules

In 1996, the Board continued making revisions to its rules to address specific Board concerns and changes in the gaming industry. The Board made several substantive rule changes. The revision process, which includes technical changes and clarifications as well as substantive changes, will continue to be a Board initiative in 1997.

The Board initiated a rulemaking in 1995 that resulted in final adopted amendments to the rules effective on April 9, 1996. This rulemaking: (1) provided detailed guidance to owner licensees on creating and maintaining approved internal control systems; (2) further regulated cruising disruptions and cancellations; (3) established a new rule defining and delineating procedures for tournaments, enhanced payouts and giveaways; and (4) regulated the distribution of coupons for complimentary chips and tokens.

On November 13, 1995, the Board proposed amendments to the rule that requires Board approval for specified financial and operation changes by an owner licensee. The amendments also provide that the Board may authorize the Administrator to approve certain of these transactions. In addition, this rulemaking added a new rule establishing procedures for the renewal of owner's licenses. These rules became effective April 22, 1996.

The Board adopted emergency rules on June 3, 1996, that embodied significant changes in the regulation of suppliers. The emergency rules: (1) authorized renewal of a supplier's license for a period of four years rather than just one year as previously provided; (2) required additional annual disclosure from licensed suppliers; (3) established a process through which a supplier can change the list of equipment and supplies offered for sale to riverboat casinos; and (4) established provisions by

which the Board may issue licenses restricted. Restricted licenses may apply to licensure duration or to situations entailing supplier bankruptcy, liquidation, reorganization and substantial change in ownership or control. Concurrent with the filing of these emergency rules the Board filed the identical amendments as a proposed rulemaking. After going through the regular rulemaking process, these proposed rules permanently replaced the emergency rules effective October 31, 1996.

In August of 1996 the Board published a proposed comprehensive revision of its rules. The Board's rules had not been revised generally since initial adoption in 1991. Some of the proposed amendments represent non-substantive technical changes, others reflect more accurately the Board's current practice and compliance requirements, and others constitute material changes reflecting new requirements and procedures. Significant aspects of this rulemaking include: (1) clarifications to the grounds for disciplinary action against licensees; (2) clarification of a licensee's duty to disclose changes in information provided to the Board; (3) provisions authorizing the Board to require an owner licensee to report in detail on distributions; (4) a requirement that an institutional investor notify the Administrator once its ownership interest in a license reaches five percent or more, and file a disclosure form once its ownership interest reaches 10 percent or more; (5) a process for Board approval of new games to be conducted on riverboats; and (6) a requirement that owner licensees provide written notification to the Administrator of any changes in cash reserves. Various public comments were received on this rulemaking. These comments are being considered by the Board and final adoption of these rules is anticipated in the first half of 1997.

The Board passed a resolution in July 1996, to permit owner licensees to conduct dockside gaming for a fixed time period to allow preventive maintenance to be performed. This resolution for the issuance of waivers was approved by the Board to assure passenger safety and to eliminate emergency repairs due to unforeseeable mechanical or structural difficulties.

BOARD ACTION — Economic Impact

During 1996, the Board followed through on its commitment to undertake an evaluation of the economic impacts of riverboat casino gaming in Illinois. In the process, the Board engaged in significant research and analysis.

In September, the Board issued the first in a series of reports on the effects of the riverboat casinos on the Illinois economy. *The Economic and Fiscal Impacts of Riverboat Casino Gambling in Illinois: Phase One-Direct Impact Data* was presented at an IGB sponsored conference. This conference gathered economists and experts from around the nation to discuss the types of information which must be developed and the various methodologies available to evaluate information to assess economic growth.

The primary source for the Board's report was the first uniform economic information collection from each of the State's ten licensed casinos. The Casino Economic Impact Study provided much needed information and data on an annual and cumulative basis. This data was used to evaluate the impact of each licensee on employment, economic development, tourism, tax revenues, local businesses and charities, and infrastructure. This information is now integrated into annual re-licensing procedures and provides a valuable tool for assessing the licensees' contributions to local and state development.

The collection of data in the report shows that the direct economic and fiscal impact of riverboat gambling from 1991-1995 within Illinois was approximately $2.4 billion. Of this amount, $800 million was in compensation (wages, gratuities and benefits) for the nearly 12,000 industry employees; $749.3 million represented combined wagering and admissions taxes; $271.3 million was spent for goods and services with Illinois firms; and, $454.7 million was expended in Illinois on construction and capital improvements. Illinois licensees also expended $18 million on charitable contributions and municipal infrastructure improvements.

Annual compensation for industry workers averaged $26,000. Over 90 percent of those workers are Illinois residents.

During 1996, the Board also completed the collection, analysis and evaluation of a comprehensive survey of the men and women employed in the gaming industry in Illinois. Nearly 80 percent of the 12,000 casino workers in Illinois responded to a survey designed to create a demographic profile of workers and to assess employee impressions about their work in the industry. The full report is targeted to be released in early 1997.

During the upcoming year the Board intends to continue its in-depth analysis of the economics of gaming. A primary focus of that research will be an assessment of Illinois gaming patronage.

BOARD ISSUES — Compulsive and Underage Gambling

The Board continued to maintain a working relationship with the riverboat casino industry to monitor and address both compulsive and underage gambling issues. In 1995, the Board encouraged the industry to take affirmative steps to deal with these issues. In January 1996, the Illinois Casino Gaming Association, representing eight of ten riverboat casinos, announced the establishment and sponsorship of a helpline. Included in this initiative is a 24 hour 800-number service staffed by counselors trained in assessing the problem gambler. Those seeking assistance through the helpline are referred to available clinical and self-help services. Additional work of the Association's program includes the production of public service announcements and the distribution of signage and educational materials designed to promote the helpline and to discourage underage gambling.

During the course of the year, the Board received status reports from the service providers on the numbers and types of calls that were received by the helpline. Presentations were also made by the Council on the development and distribution of materials and an overall evaluation on the response to the helpline by those seeking assistance.

The Board has taken a firm stand with the licensees that underage gambling is of great concern and will not be tolerated. In 1996 the Board continued to require each operator to provide monthly reports on the number of underage patrons attempting to board riverboat casinos and the actions taken when minors were detected while the vessel was cruising.

BOARD ISSUES — 89th General Assembly

In 1996, following Governor Edgar's 1995 riverboat tax proposal to change the existing wagering tax from a flat rate to a graduated scale, numerous "copy cat" proposals surfaced. There were seven versions of the graduated tax proposal introduced during the 1996 session including Governor Edgar's. None of the proposals passed both chambers of the Illinois General Assembly.

In addition to proposals to raise taxes on riverboats, other substantive legislation affecting the Illinois Gaming Board proposed during the Spring '96 session included several bills authorizing the Board to approve dockside gambling. This legislation was primarily intended to help the Casino Rock Island and the Silver Eagle remain competitive with their Iowa counterparts. Legislation, authored by the Board to subject underage gamblers in Illinois to criminal sanctions was also introduced during the 89th General Assembly.

No substantive legislation amending the Riverboat Gambling Act was passed by the 89th General Assembly during 1996.

In May 1996, House Joint Resolution 101 was passed creating a Gaming Study Task Force. The ten member Task Force, comprised of five members of the Senate and five members of the House, received a great deal of testimony while conducting a comprehensive study of Illinois gaming. The Board's Administrator testified before this Task Force and outlined the legislative agenda endorsed by the Board. ▣

1996 Revenues

By the end of 1996, the accumulated total of gaming taxes paid by the Illinois riverboat casinos reached the $1 billion mark. In 1996 alone, the gaming taxes paid by Illinois' 10 licensees totaled $276,720,964.

Statewide AGR in calendar year 1996 totaled $1.131 billion, reflecting a four percent decline from 1995's AGR total of $1.178 billion. At the close of the first six months of 1996 the total Illinois AGR was six percent above 1995 levels, further illustrating the impact of added competition from the June opening of the northwest Indiana operations. Paid admissions for 1996 totaled 25,211,329 million, a slight increase over 1995's total paid admission of 24,835,833.

The continued growth of the gaming industry in the Midwest has brought new competition for the gaming dollar. Three of Illinois' five bordering states, Iowa, Missouri and Indiana, now have riverboat casinos. The first effects of this competition were felt by the Casino Rock Island and the Silver Eagle, whose revenues and admissions have continued to decline since 1994, when Iowa eased their gaming laws to allow dockside gambling, eliminated wagering loss limits and, authorized electronic gaming devices at racetracks.

In June of 1996, three new gaming facilities began operations in Indiana. The new Lake Michigan riverboats in Hammond and Gary have initially affected the Illinois vessels in Joliet. Historically amongst the leaders in AGR for the state, Empress-Joliet and Harrah's Joliet Casino saw a combined decline of nearly 3 percent in admissions and 14 percent in AGR. The impacts of Indiana's Evansville casino, which opened in December 1995, have been less dramatic on nearby Southern Illinois Riverboat Casino Cruises in Metropolis, reflecting approximately a 3 percent drop in admissions and an 8 percent drop in AGR.

It is anticipated that riverboat gaming tax revenues will decline in 1997 and level out over the next few years. Illinois most likely will experience stable or slightly declining casino tax revenues, unless existing legislation to expand gaming or an increase to the tax rate assessed on riverboat gaming receipts are passed.

The following pages will profile the state's riverboat casino industries activities for 1996. Specific boat profiles follow the statewide data. ▩

Appendix

Glossary of Terms

Adjusted Gross Receipts (AGR)
Gross gaming receipts, less winnings paid to wagerers.

Admissions
The sum of both turnstile patron count and passengers remaining on board for one or more subsequent excursions.

Educational Assistance Fund (EAF)
A fund of the state of Illinois into which state-retained gaming taxes are deposited.

Electronic Gaming Device (EGD)
A video gaming machine or reel type of machine, commonly known as a slot machine.

EGD Drop
The total face value of tokens or representations of tokens collected from the drop bucket and U.S. currency collected from the bill validator drop box.

EGD Handle
The total amount wagered on an electronic gaming device.

EGD Win Percent
The percentage of the total EGD handle that is retained as winnings by the casino. (Board rules provide that EGDs must pay out at least 80 percent and no more than 100 percent of amounts wagered in those machines. The amount remaining after these payouts is the casino win and is used to calculate the actual electronic gaming device win percentage.)

Gaming Positions
Each riverboat casino is allowed up to 1,200 gaming positions. The formula developed by the Board to calculate those positions are:

Electronic gaming devices — 90 percent of the total number of devices available for play
Craps — 10 positions for each craps table
Other table games — 5 positions for each table
Keno — 5 gambling positions

Local Share of Riverboat Gambling Revenue
One-half of the admissions tax ($1 of the $2-per-person tax) and one-fourth of the wagering tax (the wagering tax is 20 percent of the AGR), paid to the local governmental unit where the riverboats dock.

Patrons
The number of individuals that have boarded the riverboat through the turnstiles.

Slot Machine
The common phrase to describe an Electronic Gaming Device.

State Share of Riverboat Gambling Revenue
One-half of the admissions tax ($1 of the $2-per-person tax) and three-fourths of the wagering tax (the wagering tax is 20 percent of the AGR), retained by the state.

Total Table Drop
The total amount of cash or cash equivalents contained in the drop box for chips purchased at a table game. This does not reflect the total dollars wagered at the gaming tables. Individuals playing table games may be betting with winnings for which there is no accurate means of determining, or accounting for, actual dollars wagered.

Riverboat Casino Licensees

Alton Gaming Company
Alton Belle, Alton
Initially licensed: October 1991

Par-A-Dice Gaming Corporation
Par-A-Dice, East Peoria
Initially licensed: February 1992

3401 North California Avenue
Chicago, Illinois 60618
Supplier: Electronic Gaming Devices

Illinois Gaming Board Approved Games

Baccarat / Mini-baccarat
A card game played upon a table with a layout, using a single deck or multiple decks of cards dealt from a shoe. The shoe may be offered to each player. The highest game count possible is nine (9). The hand with the highest point count wins.

Big Six
A game played on a vertical wheel having separate compartments. A player bets on the outcome of the wheel spin by placing wagers on areas of a layout which correspond to the compartments on the wheel.

Blackjack (Twenty-one)
A card game played upon a table with a layout, using a single deck or multiple decks of cards. The player attempts to beat the dealer by obtaining a card total equal to or less than twenty-one (21), such that his total is higher than the dealer's.

The Board has approved the following game variations of Blackjack:

Multi-Action Blackjack
wherein the player makes two or three wagers, the dealer uses a common up-card and the player uses initial cards dealt for all hands played;

Royal Match 21
wherein the player, while playing Blackjack, may place additional wagers based on obtaining matching suits; and,

Twenty-One Super Bucks
wherein the player, while playing Blackjack, may place an additional wager to win a progressive jackpot. A player wins a progressive jackpot by obtaining a specific combination of cards previously identified by the owner licensee.

Caribbean Stud Poker
A five card stud poker game, played upon a table with a layout, using a standard fifty-two card deck. Each player plays against the dealer and also has the option of making an additional wager to win a progressive jackpot. A player wins a progressive jackpot by obtaining a specific poker hand previously identified by the owner licensee.

Craps
A game, played upon a table with a layout, in which two dice are rolled to make different points or combinations. Wagers are placed upon various possible outcomes for a given roll of the dice or for a series of rolls.

Giveaway
A game where patron entry to the game is determined by attendance on a riverboat or the attainment of a certain outcome or an accumulation of points/credits on a gaming device.

Let It Ride Poker
A card game, using a standard fifty-two card deck, played upon a table with a layout accommodating up to seven players. A player places multiple wagers and seeks to attain a winning poker hand using, in combination, cards dealt to the player and community cards held by the dealer.

Multi-Action Blackjack
(see Blackjack)

Red Dog
A card game played upon a table with a layout, using a single deck or multiple decks of cards with each suit valued in a descending order with the Ace as the high card. The dealer deals three cards face-up. Wagers are won if each of the three cards dealt have identical values or if the third card dealt has a value between the values of the first and second cards.

Roulette
A game using a table layout and a horizontal rotating wheel with 37 or 38 compartments. Players make wagers on numbers and colors corresponding to the compartments on the wheel. The outcome of the game is determined by the compartment in which a nonmetallic ball comes to rest.

Royal Match 21
(see Blackjack)

Sic Bo
A dice game played with three dice contained in a sealed shaker. Wagers are placed on a layout showing all possible winning combinations.

Single-Position, Multi-Game Video Electronic Gaming Device
Any electronically operated microprocessor based gaming device which upon payment of consideration and after a selection of games available on the monitor is made by a single patron, and not in concert or competition with any other patron or patrons, and by receipt of such consideration shall cause such device to operate whether by reason of the skill of the patron or application of the element of chance or both, that reaches a game outcome by utilizing a random number generator and then portrays the outcome of that random number generation of the game selected by the patron on a video monitor and then may deliver or entitle the patron playing or operating the device to receive premiums, merchandise, tokens, redeemable game credits or anything of value other than non-redeemable free games or United States currency, whether the payoff is made automatically from the machine or in any manner.

Single-Position, Reel-Type Electronic Gaming Device
Any electronically operated microprocessor based gaming device which upon payment of consideration is available to play or operate by a single patron, and not in concert or competition with any other patron or patrons, and by receipt of such consideration shall cause such device to operate whether by reason of the skill of the patron, or application of the element of chance or both, that reaches a game outcome by utilizing a random number generator and then portrays the outcome of that random number generation in a stepper motor reel position and then may deliver or entitle the person playing or operating the device to receive premiums, merchandise, tokens, redeemable game credits or anything of value other than non-redeemable free games or United States currency, whether the payoff is made automatically from the machines or in any manner.

Single-Position, Single-Game Video Electronic Gaming Device
The same as a Single-Position, Reel-Type Electronic Gaming Device, except that the game outcome is portrayed on a video monitor rather than stepper motor reel position.

Twenty-One Super Bucks
(see Blackjack)

Code of Conduct

The Board is cognizant that its members and all those in the service of the Board must maintain the public's trust and must act in a manner that instills confidence in the regulatory independence of the Board. To that end, in December 1995 the Board adopted, by resolution, a Code of Conduct (Code). This Code addresses the issues of economic association, post-Board employment within the gaming industry and other points of concern that could impact the confidence of the public in the Board and its actions.

The purpose of the Code is to assure, to the maximum extent possible, that persons subject to it avoid situations or relationships that may lead to or represent a conflict of interest. If an employee of the Board has a question regarding the applicability of this Code to a current or prospective situation, the matter is to be presented to the Chairman of the Board or the Administrator for guidance.

Certain of the prohibitions in this Code affect or extend to the parents and children of Board members and employees. For purposes of this Code, these represent the blood lineal relations of employees or Board members, and, in the case of children, legally adopted children. It is recognized that in some cases, members and employees may have limited influence over the decisions of these relatives. This limited influence will be taken into consideration in evaluating the circumstances of a violation or a potential violation of this Code involving the lineal relatives of a Board member or employee.

Board members and employees bear responsibility for adherence to this general policy and the specific components of the Code.

Persons violating the provisions of the Code are subject to sanctions up to and including termination from service with the Board or, in the case of Board members, removal from office.

The provisions of the Code became effective January 1, 1996.

A copy of the Code is available upon request.
